

## Euro-planning and engagement for a new inter-municipal group of Unione Valle Savio to development the goals in the "European Climate & Jobs Agreement"

Duration:  
July - December 2021

Total budget of the project:  
€ 18.000, 00

Regional funding:  
€ 14.400, 00

### OBJECTIVES

The project aims is to realize a course in European Funding and design to train an inter-municipal group within in the 6 municipalities of the Unione Valle del Savio. The intent is to create a soft skills training for a inter-municipal group capable to capitalizing national and european funding opportunities, in an open perspective and continuous exchange with citizens, businesses and social and economic players at local level.

The training-course focuses on a number of specific topics identified as key intervention areas, connected between current projects at local level, including the goals of the regional "Climate & Jobs Agreement". The purpose is to publicize the contents of the Agreement for work and Climate and, in addition, to create skills able to accompanying local development in an effective and timely way.

During the same period **will be organized two thematic seminaries** in order to **create a mutual exchange with the social and economic stakeholders of the local territory** and make them informed by the indications contained in the regional "Agreement for work and Climate", as well as nation and european funding opportunities.

### ACTIVITIES

The activities included in the project are:

1. **Course in european funding and design:** the training involves the inter-municipal group of the Unione Valle del Savio and is developed in 6 lessons of 3 hours each. The course focuses on the European Territorial Cooperation programs - ETC, AMIF, HORIZON and it provides practical knowledge of planning techniques, including management, reporting and monitoring of funding.

2. Free access **thematic seminaries**, in particular:

- Seminar on European funding programs for innovative, resilient and inclusive social design (2 hours). It focuses on topics of gender equality and issue about weaker members of society.

- Seminar on funding programs for the ecological transition (2 hours) paying specific attention to the issues of climate adaptation, environmental sustainability, land vulnerability. energy transition and Green Economy.

A certificate of attendance and CFU validity will be issued.

3. **Communication and dissemination activities** regarding the project and the initiatives to achieve its objectives.
